

## Early to Mid-Career Researchers Symposium DRAFT PROGRAM

*Please note that this program is subject to change*

Time	Speaker	Title (tentative)
13.20-13.50	Sandy Steacy	Geoscience careers and the funding cycle
13.50-14.20	Tim Rawling	AuScope - national research funds
14.20-14.40		Discussion. Potential topics: How to get funding (e.g. ARC v. seed funding); Are national initiatives important for EMCG's?
14.40-15.10		Afternoon Tea (and posters)
15.10-15.20	Nicolas Flament	The geodynamics of past sea level changes
15.20-15.30	Paul Matthew	Balance of precious metals at the Paris silver deposit, South Australia
15.30-15.40	Caroline Forbes	Exploration under cover: learning to use the overburden
15.40-15.50	Stephan Thiel	Lithospheric architecture: a first order control on tectonics and mineralisation and cornerstone of UNCOVER
15.50-16.00	Karol Czarnota	Australian Architecture Reference Model (AusARM) - Towards lithospheric architecture model accessibility
16.00-16.10	Juan Carlos Afonso	Towards simulation-based inversions of multiple geoscientific data for the physical state of the Earth's interior
16.10-16.30		Open discussion on EMCR issues: Research questions; Can we identify major overlap between EMCG presentations and foster collaboration? What is the role of UNCOVER for future research?
16.30-17.30		Poster Session
